

# Excellent quality 5mm clear large silver mirror for sale

## What is 5mm clear large silver mirror?

5mm clear large silver mirror is formed by depositing silver material on the 5mm clear large sheets of glass by CVD method, later the silver layer is protected by copper compound or non-copper eco-friendly layers to prevent the silver layer oxidized by the air.

The principle of the mirror deposition could be referred to this link:

<https://chem.rutgers.edu/cldf-demos/1032-cldf-demo-silver-mirror>

The large silver mirror can be cut to customized sizes by clients' factories and edge worked before application to the walls, shower room, decorations, etc.

# Features

Our 5mm clear large silver mirror has features:

- Super high reflection rate,  $R > 90\%$ . With lighter surfaces and reflection, people can see more clearly and truly through the mirror;
- Super flat surface with no deformation: unlike other mirrors with shape distortion, our silver mirror has a super flat surface and can reflect the true shape of human figures.
- Super good anti-corrosion ability: 3 times higher than an aluminum mirror.
- Longer lifespan;
- With further processes such as acid etching or sandblasting, you can also achieve antique silver mirrors or decoration mirrors, etc;
- With multiple tinted glass options, we can also provide you with grey silver mirrors, bronze silver mirrors, etc.

# Quality

Our large silver mirror quality can meet:

- AS;
- ASTM;
- CE;
- ISO9001; etc

# Applications

The 5mm large silver mirror could be processed and applied in multiple places like shower rooms, gym wallings, decoration partitions, vanity mirrors, etc

## SDG brand silver mirror properties:

<b>Production name:</b>	silver mirror glass
<b>Thickness:</b>	3mm, 4mm, 5mm, 6mm, etc;
<b>Sizes:</b>	large sheets for size 2140×3300, 2140×3660, 2440×3300, 2440×3660, 2140×1650, 2140×1830, 2440×1650, 2440×1830, 1220×1650, 1220×1830, etc;
<b>Production time:</b>	within 7 days after the order is confirmed;
<b>Mirror colors:</b>	clear, ultra clear, grey silver mirrors, bronze silver mirrors, etc.
<b>Samples:</b>	free samples are available;
<b>Package:</b>	Plywood crates packed with paper separate, water clean
