Introduce the product – 5mm+5mm laminated glass pdlc bathroom door

This smart glass product is a 5mm+5mm laminated bathroom door. It's unique as it has smart glass technology, providing technology-driven convenience and aesthetic appeal. The smart glass features in this bathroom door let you switch from transparent to opaque, providing light control without compromising the view of the outside or elegance on the inside. Moreover, safety is key—the PDLC smart glass helps keep your home secure and soundproofed. This product is perfect for luxury bathrooms and reflects smart and sustainable design characteristics that enhance the overall atmosphere of your home.

Describe the features and benefits of the product

This laminated glass pdlc bathroom door is a revolutionary product that has multiple features and benefits. It boasts an automatic locking system for enhanced security, as well as a light and sound indicator to alert people when the door is locked or unlocked. To ensure maximum privacy within the bathroom, the laminated glass can also be switched from clear to opaque with a touch of a button – perfect for when one needs to quickly switch between visibility and full transparency.
