

Excellent 8mm clear tempered curved glass panel for shower enclosure prices

What is 8mm clear tempered curved glass panel for shower enclosure?

8mm clear tempered curved glass panel is produced by bending the edgeworked glass in the tempering machine to a certain radius & arch, to form a curved shape for curved shower glass.

8mm clear tempered curved glass can provide 5 times higher strength than normal annealed glass, it can endure high strength impact without breaking. And due to curved tempered glass is also rated as safety glass, when it is even broken accidentally, it won't shatter into sharp pieces. Thus ensuring human safety.

Features:

- High strength: 8mm clear tempered curved glass offers 5 times higher strength than normal annealed glass. It can endure certain strength impact without breaking.
- Good temperature stability: tempered curved glass for shower is stable because tempered glass has good temperature stability which can endure temperature change within 250 degree.
- Super good clarity: We adopt high quality float glass

which can ensure you the transmittance over 87%.

- Super safe: 8mm clear tempered curved glass can endure high strength impact, even when it is broken by accident, the broken pieces will be small particles with obtuse angles, which will do no harm to human beings. Suggestion to stick anti-blast film on the shower glass to avoid the sudden glass breakage.

Quality:

Our 8mm clear tempered curved glass quality subject to:

- AS standards;
- ASTM standards;
- BS standards;
