

China wonderful design 12mm corrugated glass panels price

1, What is 12mm corrugated glass?

12mm corrugated glass is also called 12mm fluted glass, 12mm ribbed glass, 12mm reeded glass, etc. It has multiple grooves on the 12mm glass surface. Forming a translucent and mysterious appearance for vision.

Generally speaking, there are [two production methods of corrugated glass](#). One is forming the grooves by the hot rolling method on the glass surface, the other one is carving the glass surface to form different patterns. Both options have their own advantages.

Here we are discussing the 12mm corrugated glass base on the carving process.

12mm low iron corrugated glass.

2, The carving process of 12mm corrugated glass.

The production process will go through:

1. Cutting the glass to the custom sizes;
2. Grinding the glass and polishing;
3. Carving patterns on the glass surface;
4. High temperature tempering;
5. Strong plywood crates packing.

Below is the video of the carving process:

Carving process
