

China excellent 10mm 12mm clear tempered glass for padel glass with the best price

What is 10mm 12mm clear tempered glass for padel glass?

Padel glass also named padel court glass. 10mm&12mm clear tempered glass for padel glass is using super high quality(auto-grade) 10mm&12mm clear float glass cut to size(usually about 2metres*3metres) after grinding then send to drilling machine for 4 or 6 flared holes. Later the 10mm & 12mm clear float glass is sent to the tempering machine, heating to over 650 degrees temperatures and then cool down rapidly by a strong wind jet. This tempering machine can enhance the 10mm & 12mm clear tempered glass strength to over 95Mpa. Tempered glass can endure strong impact, even when it is broken, the broken pieces will shatter into small pieces with obtuse angles which will do no harm to human beings.

Clear tempered glass for padel court glass.

Features:

- High strength: the 10mm & 12mm tempered glass strength above 95Mpa, can endure strong impact without breakage.
- High clearance: with transmittance >87%, the clear tempered glass can make sure you enjoy the good scenery around but without any disturbance from the wind when playing tennis.
- Safety: the 10mm&12mm clear tempered glass is rated as top A safety glass according to the international quality standards.
