

CE certified factory 4~25mm good tempered glass price

Shenzhen Dragon Glass is founded in 1994, a **professional glass manufacturer** providing excellent quality tempered glass to clients from around the world with good reputations. Focus on each process of glass producing, we are dedicated to making each piece of glass perfect. Large quantity output ensuring our tempered glass price very competitive in the glass market.

Super flat surface with perfect edgeworks!

Definitely no harm to humans during installation.

Tempering process: heating the edge worked glass to over 600 degrees temperatures and cool down with the strong wind jet, making the glass form high pressure on the surface and balanced tension in the interior. Increasing tempered glass 5 times strength.

Super flat and no distortion with flat mirror effect!

High transmittance!

You can enjoy the sunshine and the beautiful scenery out there!

Super tough !

Our tempered glass can endure powerful impact.

Super safe!

Even break after accidentally extreme impact, the tempered glass will **have no sharp angles**, which will do **no harm to humans**.

A brief view of how we produce tempered glass:

Adopting the top A grade quality glass raw material.

Accurate glass size cutting by advanced machines with no chips

no scratches

Drilling holes with accurate sizes and positions

Careful quality control inspection making sure each piece of glass perfect before delivery.

Impact testing and stress inspection when all ok, then put into mass productions.

Strong plywood crates to make sure glass products safety during long-distance transportation

Applications

Due to its high strength & safety, tempered glass is now widely used as façade, curtain wall, railing, canopy, sunrooms, windows, doors, shower rooms, etc. If you would like to enhance the glass safety function, you could make it [laminated tempered glass](#).
