

# **Super good decoration 8+1.52PVB+8 color laminated glass supplier**

## **What is 8+1.52PVB+8 color laminated glass for glass walls?**

8+1.52PVB+8 color laminated glass is using two glass panels of 8mm clear tempered glass to compose with a 1.52pvb interlayer forming a “sandwich” configuration. This “sandwich” laminated glass is undergoing a high temperature and high pressure for over 6 hours, therefore forming a permanent combination. Double laminated glass can endure super strong impact and no breakage, even when one panel is broken due to extremely high impact, the PVB interlayer will glue the glass together without spreading the glass pieces away.

## Features of double laminated glass:

- Super strong: Single tempered glass strength is 5 times stronger than normal annealed glass, whereas laminated tempered glass can join two or more pieces of tempered glass together, therefore, making the glass super strong and tough
- Super safe: Even when one tempered glass panel is broken by extreme impact, the broken pieces of glass can still glue together with the interlayer material.
- Multiple designs available: Different glasses and different films can form different designs
- Splendid beauty

## Specifications:

- Production name: 8+1.52PVB+8 double laminated glass
- Glass color: clear, ultra clear, blue, green, bronze, grey, etc.
- Glass thickness: 4+4mm, 5+5mm, 6+6mm, 8+8mm, 10+10mm, etc, customizable.
- PVB thickness:
  - PVB: 0.38, 0.76, 1.14, 1.52, 2.28, 3.04, etc;
  - SGP: 0.89, 1.52, 2.28, etc.
- PVB color: Clear, other options such as milky white, pink, green, blue, bronze, yellow, purple, etc are available
- Process: Cutting; Edging; Drilling; Tempering; Laminating.
- Size: 2440\*3660(max normal size) other special sizes need

to negotiate.

- Production time:10-15 days
- MOQ:100 SQM

*Red laminated glass*

## Quality:

- Subject to AS;
- Subject to BS;
- Subject to CE;
- Subject to SGCC;
- Subject to CCC;
- Subject to ISO9001.etc

## Applications:

8+1.52PVB+8 color laminated glass for glass wall with multiple designs:

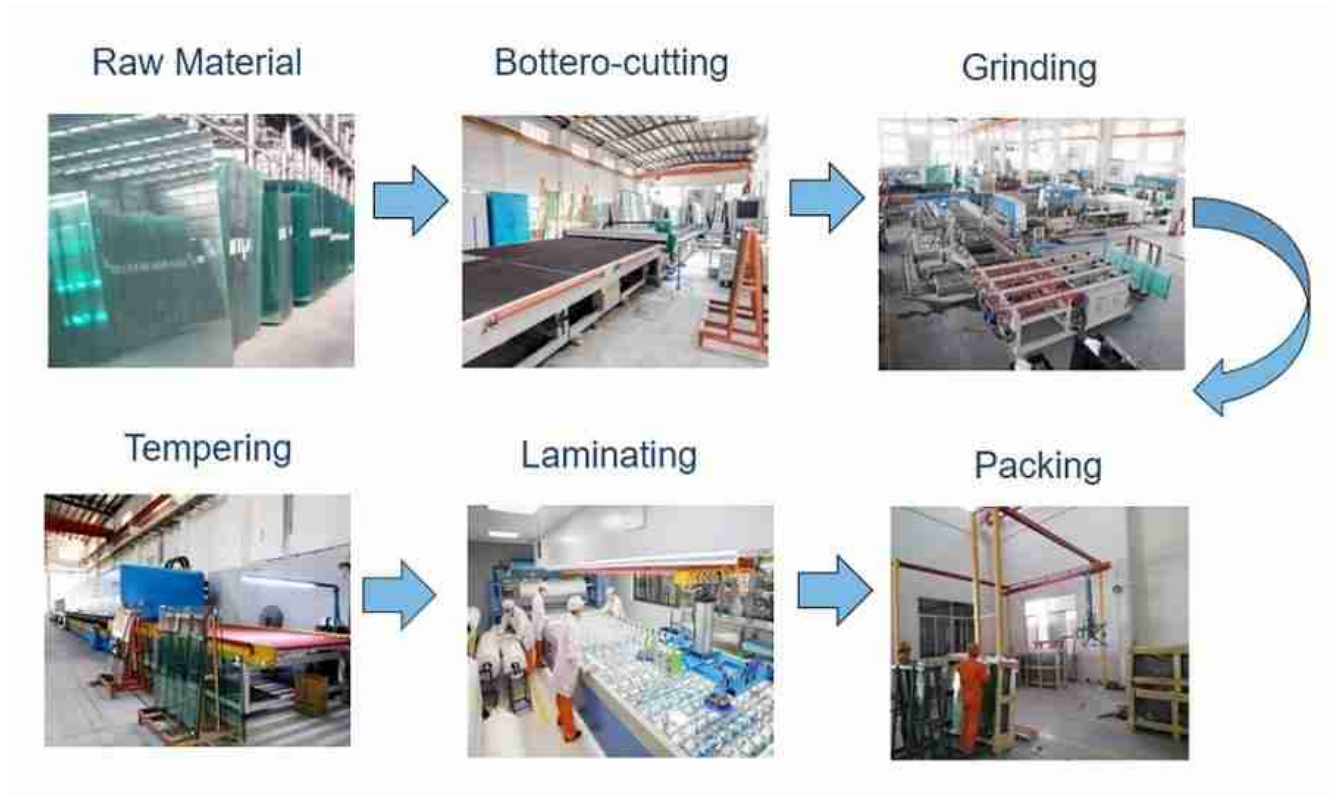

## Production details of double laminated glass:

Double laminated glass is undergoing:

- Cutting;
- Edging;
- Drilling
- Tempering;

- Laminating;
- Packing; Etc.

## Packing and delivery:

Strong plywood crate packing to ensure the laminated glass products' safety during long-distance transportation.

## What is the laminated toughened glass price?

Laminated toughened glass price will rely on several factors like:

- Glass quantity;
- Size: we should consider the cutting rate;
- Need metal accessories or not; Etc.

We [Shenzhen Dragon Glass](#) provides super good quality and the best laminated toughened glass price for clients around the world, if you need your accurate double laminated glass price, welcome to contact us now!
