

CE certified 15mm clear curved tempered glass for commercial glass balustrade supplier.

What is 15mm clear curved tempered glass for glass balustrade?

15mm clear curved tempered glass is achieved by heating the customized sizes of glass after edgework to around 700 degrees temperature in a tempering oven for a certain time and then quickly chill down to about room temperature by a strong wind jet. During the cooling down process, the 15mm clear glass will be bent in a curved mold which is preset for a settled Radius. Usually, 15mm clear curved tempered glass will have safety angles such as R5mm to protect humans from hurt and also can manifest an elegant appearance.

Features:

- Super accurate processing, easy for installation;
- Super strong, can endure extremely high impact without breakage;
- Super safe, even when broken, the pieces will shatter into small particles with obtuse angles which is completely no harm to humans;
- High clearance, show a commercial building a great sense of beauty and modern style;
- Long lifespan, easy for maintenance.

Specifications:

- **Production name:** 15mm clear curved tempered glass for commercial glass balustrade;
- **Glass thickness:** 15mm, other thickness can be customized;

- **Glass color:** clear, other tinted colors such as low iron, green, blue, grey, bronze, etc can be customized;
- **Glass shape:** curved/flat according to designs;
- **Safety angles:** R5mm, other radius can be customized;
- **Functions:** Fencing, decoration, etc;
- **Quality:** Subject to CE/ASTM/AS/CCC/ISO9001, etc;
- **Packing:** Strong plywood crates packing;
- **Production time:** 10 days after order confirmed
- **Min Radius:** 900mm;
- **Max height:** 3800mm;
- **Free samples:** available in 3~5 days.

Quality:

- 15mm clear curved tempered glass quality subject to ASTM;
- 15mm clear curved tempered glass quality subject to CE;
- 15mm clear curved tempered glass quality subject to AS;

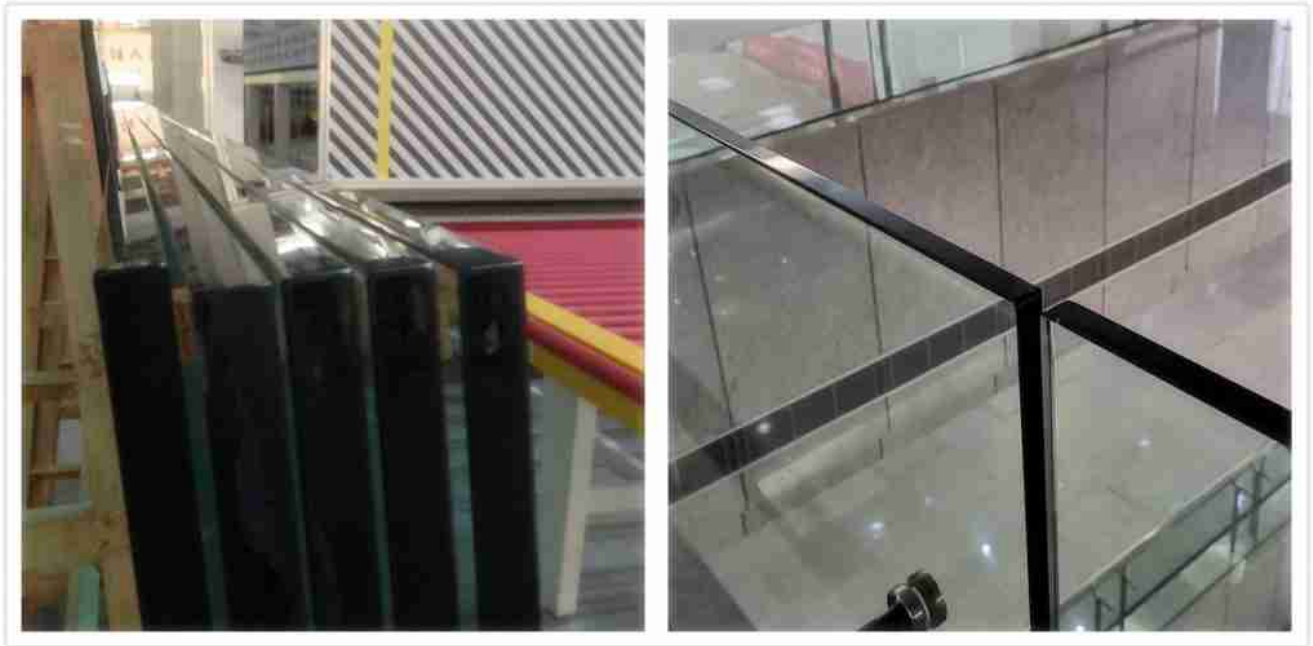

Applications:

15mm clear curved & flat tempered glass for commercial glass balustrade applications.
