

curved tempered glass production

Curved tempered glass production

As a professional glass manufacturer with over 20 years of experience, we mainly supply two kinds of excellent curved glass at a competitive cost to meet your budget: bend curved glass and tempered curved glass.

Mostly tempered curved glass is applied in constructions due to its safety performance, while bend curved glass usually used in work of art or some small vessels.

We have supplied curved glass all over the world and the large daily output allows our cost reasonable.

curved glass is ubiquitous in our life. used for glass room□interior decoration, windows, and facade, etc
