

Magnificent 5~12mm flat curved euro grey tempered glass for windows & facade projects with good price

What is euro grey tempered glass?

Euro grey tempered glass is also called light grey tempered glass. It has a darker grey color compared to crystal grey whereas lighter grey is compared to the dark grey tempered glass. Euro grey tempered glass also will go through a tempering process and has 5 times higher strength compared to normal grey tinted float glass. Euro grey tempered glass has a very good decoration function and a good thermal&optical performance can be used as monolithic or as insulated glass or laminated glass for applications such as railing, windows, facade, etc.

Tempering process

Features:

- Beautiful grey color to decorate the buildings;
