

Float Glass

Float Glass

Clear Float Glass

Clear Float Glass is a high quality, visually colorless and distortion free flat surface, providing high light transmission (daylight) and clarity. Clear Float glass is the core base product for most of our common glass products and is easily adjusted to a specific requirement: lamination, low emissivity (Low-E), tempering, reflectivity, etching, silk screening with ceramic colors, heat treatment and insulating glass.

Characterstics

- Optical clarity
- High light transmission
- Smooth and flat surface
- Easily fabricated
- Clear cut

Availability

Thickness: 2mm 3mm 4mm 5mm 6mm 8mm 10mm 12mm 15mm 19mm
