

Verre feuilleté miroir doré rose 5+5 mm super étincelant

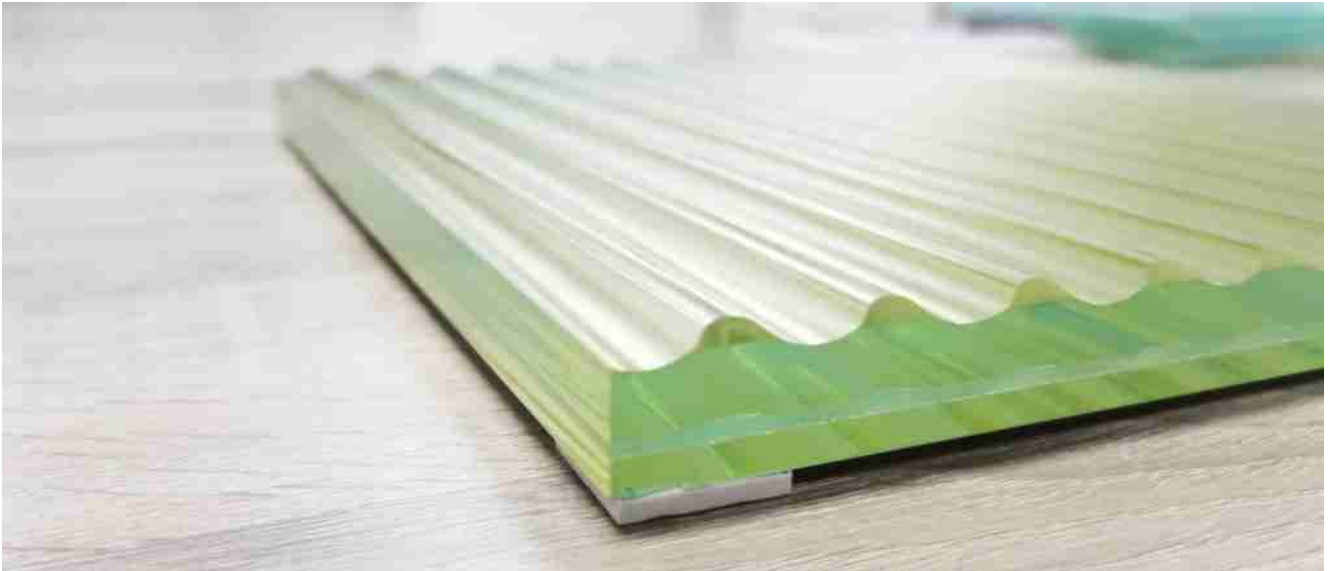

Qu'est-ce que le verre feuilleté miroir or roseau?

Le verre feuilleté miroir doré cannelé est également appelé verre feuilleté miroir doré cannelé ou verre feuilleté miroir doré nervuré. Ce type de verre a la même surface que le verre cannelé et le miroir doré permet à cet article de briller, il a un fort effet décoratif et d'intimité.

Le verre miroir en or reed utilise du verre reeded et un miroir en or collés avec un EVA à haute transmittance ou un adhésif en résine époxy.

Quelle est la différence entre l'EVA et l'adhésif en résine époxy ?

Adhésif en résine époxy

Intercalaire EVA

Another method of reeded laminated glass with the same sparkling effect

Autrefois, nous introduisions l'effet scintillant du miroir doré. Maintenant, nous pouvons prendre une autre méthode pour obtenir cet effet décoratif, qui consiste à prendre en

sandwich le fil de métal doré dans la couche intermédiaire. Vous pouvez ajuster la force de la couleur dorée. Avec plus de fil métallique doré, l'effet doré sera plus évident.
