

5mm clear tempered glass fridge glass shelf manufacturer

What is 5mm clear tempered glass fridge glass shelf□

A 5mm clear tempered glass fridge glass shelf is a transparent, 5mm thick glass shelf designed for use in refrigerators, and it has undergone a tempering process to enhance its strength and safety features.

Features of tempered glass fridge Upper shelf

Safety

In the event of breakage, tempered glass panels shatter into small, rounded pieces rather than sharp, jagged shards. This

minimizes the risk of injury if the glass is accidentally broken.

Load-bearing Capacity

Tempered glass panels in refrigerators are designed to support the weight of stored items without breaking or warping. The tempered glass provides a sturdy surface for shelves and door panels.

Easy to Clean

Tempered glass is smooth and easy to clean, making it a practical choice for refrigerator panels. This feature ensures that the refrigerator's interior remains hygienic and visually appealing.

Chemical Resistance

Tempered glass panels in refrigerators are designed to support the weight of stored items without breaking or warping. The tempered glass provides a sturdy surface for shelves and door panels.

Transparency

The glass is usually clear to allow visibility into the refrigerator and showcase the stored items. Some refrigerator models may have tinted or frosted tempered glass for aesthetic

purposes.

Aesthetic Appeal

Tempered glass panels contribute to the overall aesthetic appeal of the refrigerator, providing a modern and sleek look. We can offer different finishes or edge treatments for added design options.

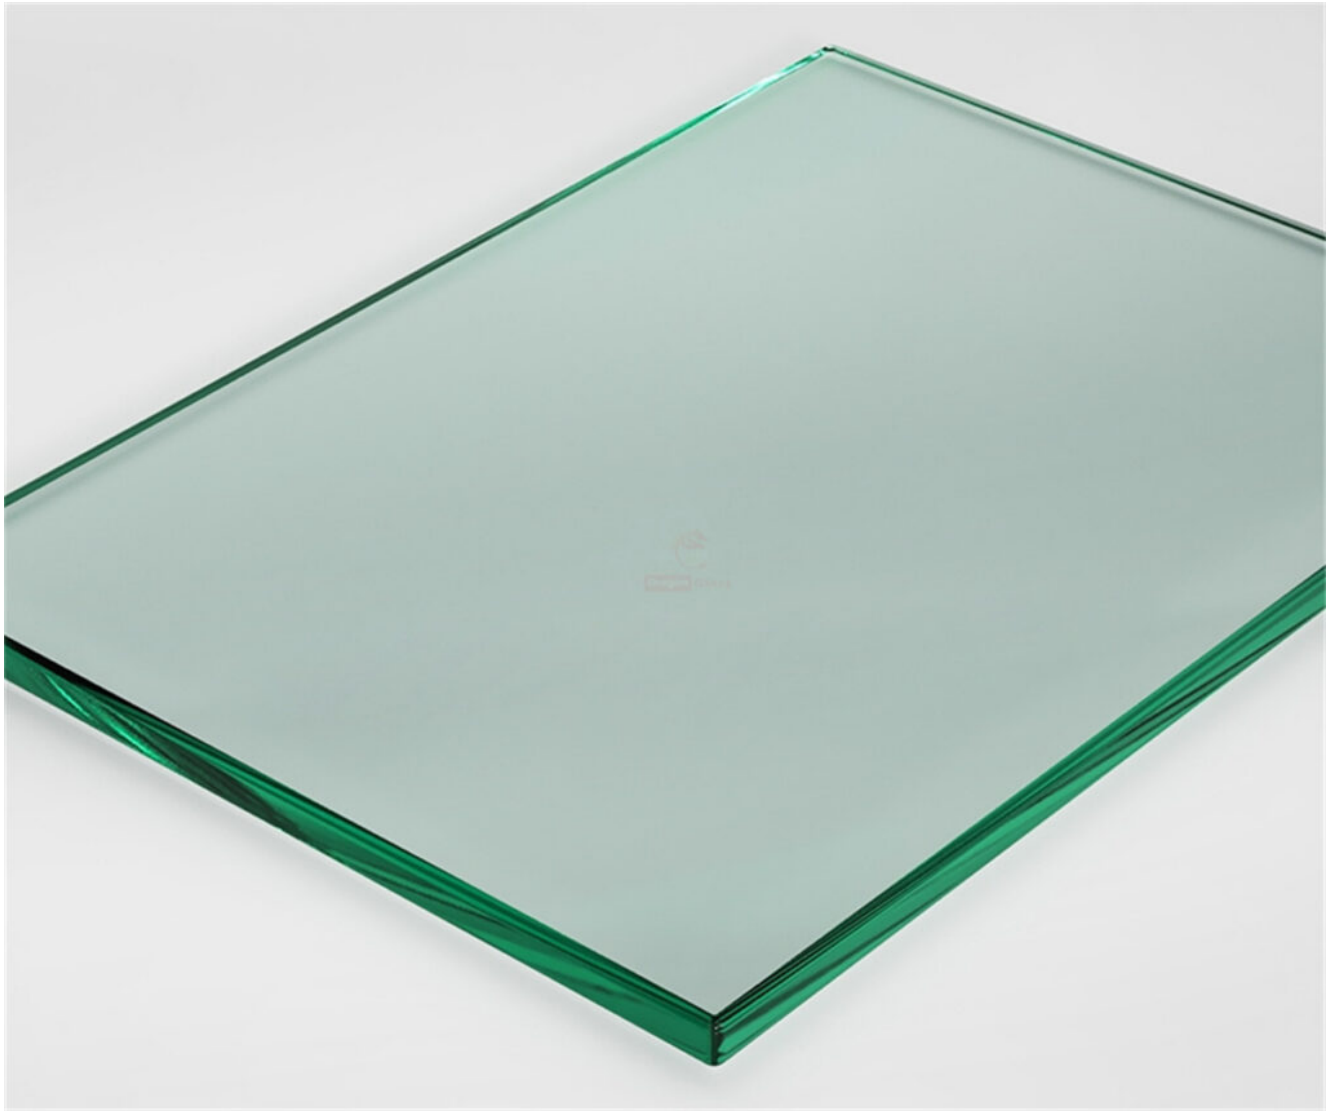

Quality standard of tempered Refrigerator Glass Shelf

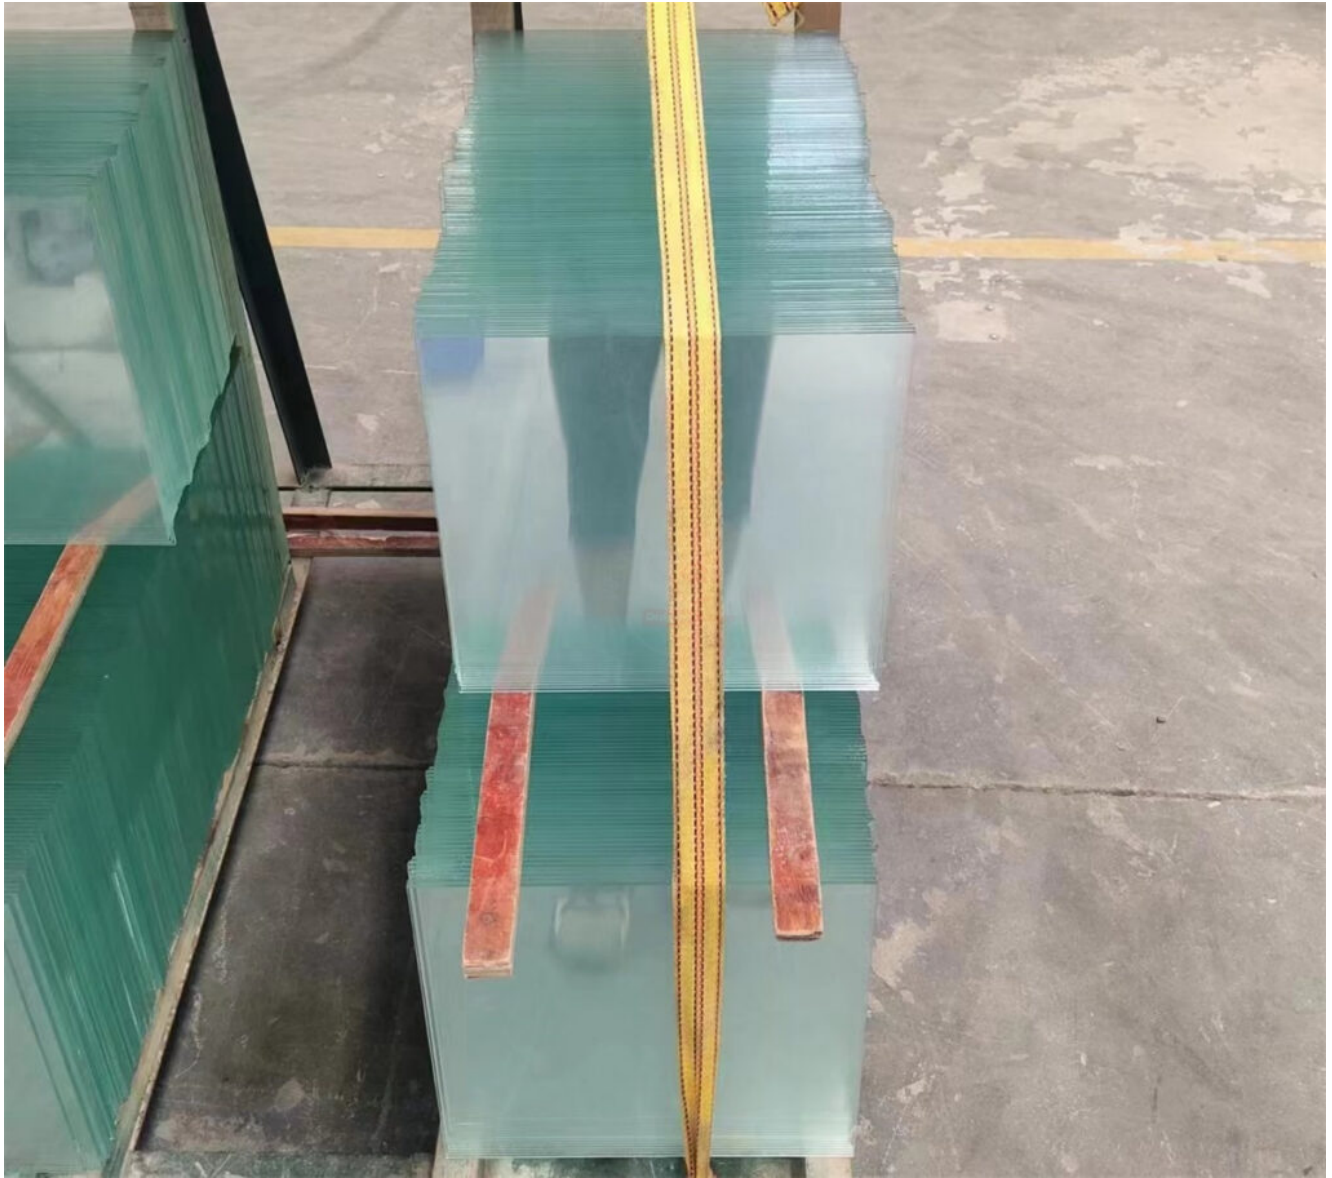

- Subject to BS standard;
- Subject to AS standard;
- Subject to ASTM standard;
- Subject to CE standard;
- Subject to the ISO 9001 standard.
