

# jumbo size panel lifting video

## **Jumbo Size 15 mm thick tempered glass Toughened Glass Villa building Facades Decoration**

### Features of tempered glass

1. Strictly meet with building codes and safety requirements
2. Strong enough to withstand high levels of thermal stress
3. 3-5 times stronger than annealed glass of the same thickness
4. Breaks up into small cubical fragments, not threatening to humans
5. Can be printed with special logo and patterns with enamel silkscreening
