

# **Super good design 6+6mm 8+8mm pvb laminated acoustic glass partition price**

## **What is 6+6mm 8+8mm laminated acoustic glass partition?**

6+6mm 8+8mm pvb laminated acoustic glass partition is using either 6mm clear tempered glass or 8mm clear tempered glass laminated by an acoustic pvb interlayer, this process is done by a high temperature and high pressure autoclave for over 6 hours, making the “sandwich” configuration permanently together.

### *laminated acoustic glass structure*

The 6+6mm 8+8mm acoustic pvb laminated glass is very good for internal glass partitions as it can reduce noise by more than 37dB+. This means that you can enjoy a silent environment inside the office not just for working but also when you are resting to read a book even the outside is very noisy.

*Internal glass partition with acoustic designs.*

## Features:

- **Super soundproofing:** acoustic glass is capable of noise deduction >37dB+;
- **Super strong:** pvb laminated acoustic glass can endure extreme impact;
- **Super safe:** the laminated acoustic glass will not harm people even when one or two pieces of glass break;
- **Good decoration:** multiple designs such as frosted, milky white, colorful, PDLC options are available;

## Specifications:

- **Production name:** 6+6mm 8+8mm pvb laminated acoustic glass partition;
- **Glass color:** Clear, low iron, gray, green, blue, bronze, etc;
- **Glass thickness:** 6+6mm, 8+8mm, other thicknesses such as 4+4mm, 5+5mm, 10+10mm, etc are all available;
- **Glass quality:** Top A level;
- **PVB thickness:** 0.38, 0.76, 1.14, 1.52, 1.90, 2.28, 3.04, etc;
- **PVB color:** Green, blue, gray, yellow, red, orange, purple, etc;
- **Functions:** Privacy, soundproofing, decoration, high strength;
- **Production time:** 10~15 days;
- **Max size:** 2440\*3660mm for glass partitions;
- **Packing:** Strong plywood crates packing;
- **Accessories:** metal such as aluminum, stainless steel, etc;
- **Samples:** Free samples are available in 5~7 days.

## Quality:

- Subject to AS;

- Subject to CE;
- Subject to BS;
- Subject to ASTM(SGCC);
- Subject to ISO9001.

## Applications:

Acoustic [laminated glass](#) as its high strength and superb soundproofing functions is very popular in internal glass partition or commercial glass partitions applications. As below pictures showing:
