

TOPP 10 CE-kvalitet Padel Glass Produsent i Kina

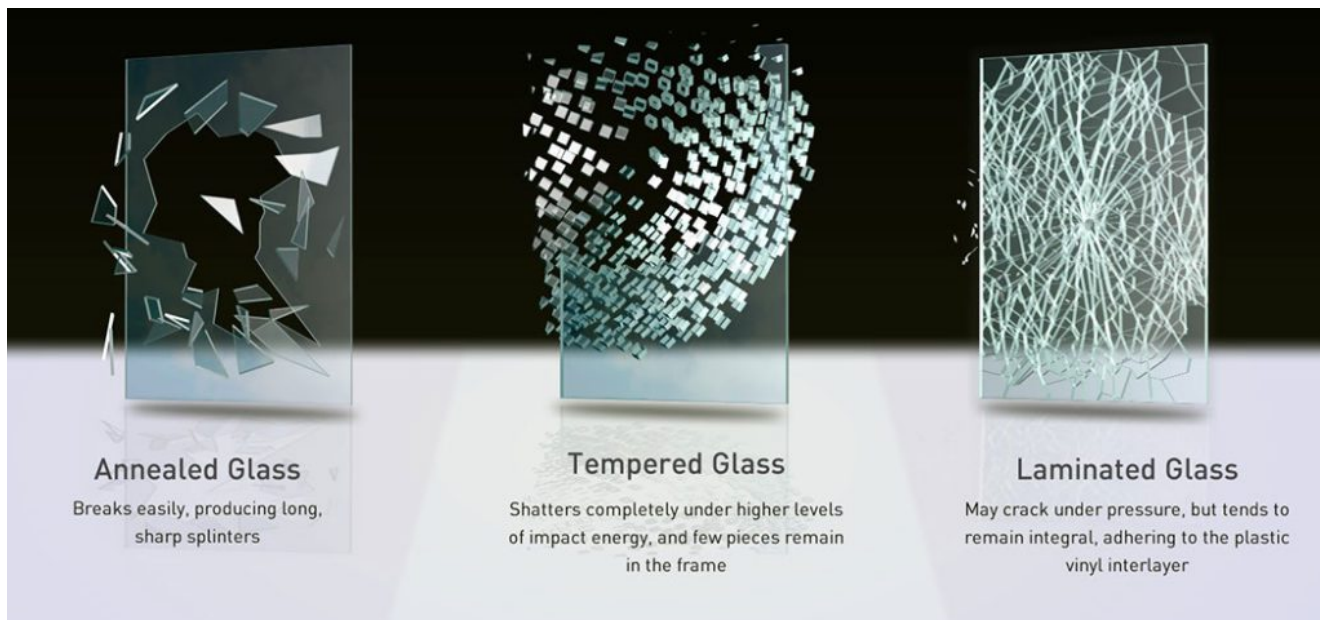

Padel tennis er en av de mest populære idrettene rundt om i verden, spesielt i europeiske land. Hvor planlegger du å kjøpe padelglass når skal du bygge en padeltennisbane?

Nå kommer du til rett sted! Shenzhen Dragon Glass som en pålitelig og profesjonell glassprodusent tilbyr høykvalitets padel tennisbaneglass til bedre priser.

Hva slags glass trenger du til en domstol?

En typisk padeltennisbane er 20 meter lang og 10 meter bred med 18 stykker padelglass. Banen er omgitt av glass, så glasskvalitet er nøkkelfaktoren. [Herdet glass](#) og [laminert glass](#) er begge sikkerhetsglass. Begge er det beste valget for å bygge padeltennisbaner.

Annealed Glass

Breaks easily, producing long, sharp splinters

Tempered Glass

Shatters completely under higher levels of impact energy, and few pieces remain in the frame

Laminated Glass

May crack under pressure, but tends to remain integral, adhering to the plastic vinyl interlayer

Hvordan lages padelglass?

Vanligvis er det 5 trinn for å lage padelbaneglass. Som en profesjonell padelbaneprodusent garanterer vi at hvert trinn følger standardene for å produsere glassprodukter av beste kvalitet for deg.

1. Inspeksjon

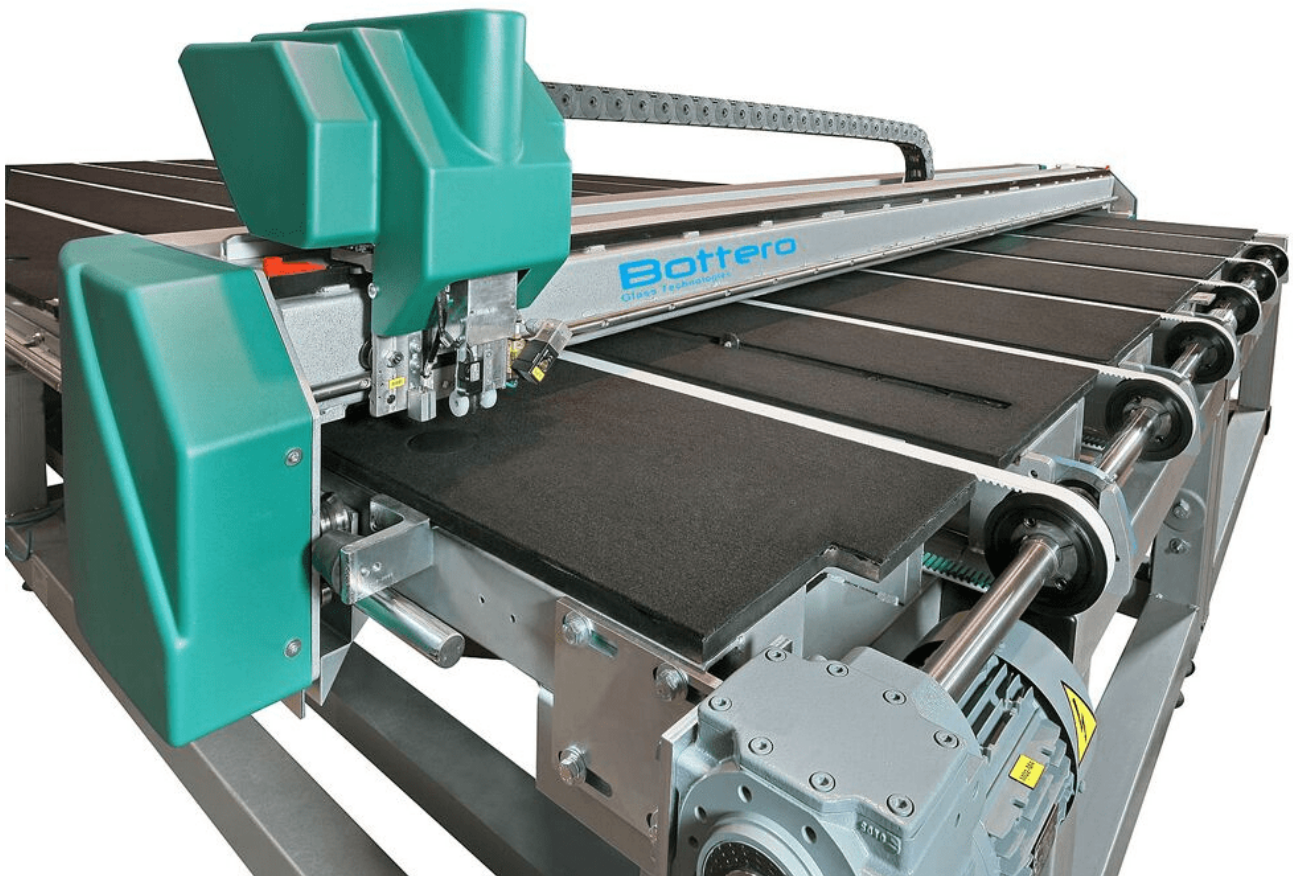

Først vil klasse A glassplatene fra Xinyi bli grundig inspisert for å sikre at det ikke er noen defekter som bobler. Tykkelser, størrelser, farger og karakterer må samsvare med produktenes etikettkort og de forseglede prøvene.

Klasse A glassplater

2. Kutting

For det andre vil glassplaten settes på vår Bottero eller LiSEC skjæremaskin, og deretter kuttet den nøyaktig uten riper eller fliser.

Bottero skjæremaskin

3. Sliping

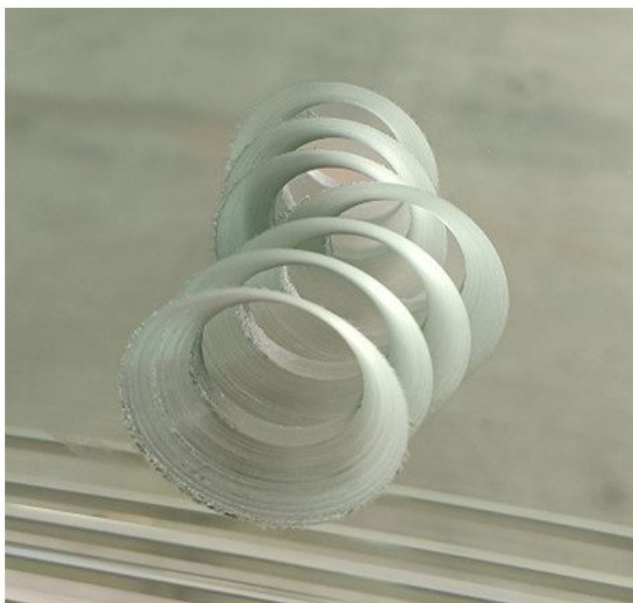

For det tredje må glassets skarpe kanter slipes for å bli flate og polerte. Du kan berøre kantene uten å bli kuttet, og glasskanter av høy kvalitet er mindre sannsynlig at de ryker under og etter herding.

polerte kanter

4. Boring

For det fjerde er padlebaneglass festet med skruer, så det kommer til boreprosessen. Størrelsene på de utsvingede hullene må være nøyaktige, og kantene er glatte uten splittelser.

substandard

standard

5. Tempering

For det femte kommer det til den viktigste prosessen. Glassplaten vil bli satt i en tempereringsovn for å øke styrken. Etter tempereringsprosessen trenger den fortsatt en varmebløttest som reduserer risikoen for spontan brudd forårsaket av nikkelsulfid. Vi garanterer at den spontane bruddprosenten av padleglasset vårt er lavere enn 0,1 %.

LandGlass tempereringsovn

Produktspesifikasjoner _

Produktnavn:	Padel tennisbaneglass
Størrelse :	2995mm*1995mm, 1995mm*1995mm, 3000*2000m, 2000*2000m, tilpasset
Tykkelse :	10mm, 12mm, 6mm+1.52PVB+6mm
Hull :	4, 5, 6, 8, 10, 12, tilpasset
Farge :	Klar

Emballasje :	Papirmellomlag mellom hvert glasspanel Sterke kryssfiner-trekasser for å sikre sikkerhet under langdistansetransport.
Sertifikater:	CE EN-12150 for herdet glass og laminert glass

Hvordan pakke padleglass og sikre sikkerhet

kraftige kryssfiner trekasser

1. Vi bruker sterk kryssfiner til å lage trekasser. Disse

trekassene er sterke og knekker ikke under lasting og lossing.

mykt tykt papir

2. Mykt tykt papir legges på overflaten av hvert glass. Det kan redusere friksjonen og vibrasjonen mellom hvert glass.

festet til beholderen

3. Etter at trekassene er lastet inn i containeren, vil de festes med nylontau slik at trekassene ikke beveger seg under

frakten. Når glasset kommer til porten din, er det fortsatt i god stand uten brudd.

CE-sertifikater

 Certificate NO.: LBTC210420139S

Declaration of Conformity

The following product has been assessed by us with the listing standards and found in conformity with the EC Council Regulation of (EU) No 305/2011. It is possible to use **CE** marking to demonstrate the compliance with this CPR Regulation.

Report No. : LBTR210420139S

Applicant : Shenzhen Dragon Glass Co., Ltd
Address : C108, Yunhai enterprise headquarters base, No. 42 Caiyun Road, Jixiang community, Longcheng street, Longgang District, Shenzhen City, China

Manufacturer : Shenzhen Dragon Glass Co., Ltd
Address : Yunhai enterprise headquarters base, No. 42 Caiyun Road, Jixiang community, Longcheng street, Longgang District, Shenzhen City, China

Product Name : Tempered glass
Trade Name : N/A
Model No. : 4mm, 5mm, 6mm, 8mm, 10mm, 12mm, 15mm, 19mm.
EC Directives : CPR Regulation (EU) No 305/2011
Test Standards : EN 12150-1:2015
EN 12150-2:2004

The referred test report(s) show that the product complies with the essential requirements in the above listed standards. The applicant is authorized to use this certificate in connection with the EC declaration of CPR conformity according to the Regulation.
The CE marking as shown below can be affixed on the equipment after the preparation of the necessary technical documentation as well as the conformity declaration by the manufacturer.
Whereas the Manufacturer is responsible for the certification of the product(s) and not exempted from performing all the necessary activities before placing the product(s) on the market.
The Manufacturer is also responsible for the internal production control to ensure the product(s) are in compliance with the essential requirements of the above mentioned Regulation(s).

 
Date of issue: Apr 25, 2021

This statement is based on a single evaluation of the sample(s) of above mentioned product. It does not imply an assessment of the whole production.
