

# 6+6 painéis de parede de vidro feitos de folhas de vidro de segurança extra claras

## O que é o painel de parede de vidro branco leitoso?

Aqui vamos introduzir dois métodos para a fabricação de painéis de parede de vidro branco leitoso, um deles é o processo de cerâmica fritado; o outro é o processo de vidro laminado.

O vidro frito de cerâmica branca leitosa é feito aplicando tecnologia de impressão de tela para aplicar tinta cerâmica branca na superfície do vidro, e então o vidro & tinta passará por um temperamento de alta temperatura para formar um revestimento permanente. Tem boas vantagens de múltiplas decorações, anti-arranhões, antiácidos, etc. A tinta na superfície do vidro após o processo de tempero de alta

temperatura tem a mesma vida útil longa que o vidro temperado.

**O vidro laminado branco leitoso** está usando duas ou mais peças de vidro permanentemente ligadas juntamente com uma ou mais cor branca leitosa PVB por alta temperatura e alta pressão. Os painéis de vidro podem ser temperados ou não temperados.

## **A parede de vidro eleva o estilo da casa**

Quer adicionar um toque de cor ao seu interior monótono chato? Adicionar uma parede de vidro branco leitosa será uma boa escolha! Seja paredes de sala, painéis de guarda-roupa do quarto ou backsplash da cozinha, a parede de vidro branco leitoso leva qualquer espaço a um nível totalmente novo.

Painéis de parede feitos de vidro branco leitoso trarão uma

corrida luxuosa para suas paredes. Também poupará muito dinheiro e esforço a longo prazo. Os tons vibrantes da parede de vidro e os efeitos de luz que ela traz elevarão o estilo de suas paredes internas. A tonalidade e a luz juntos também darão vida aos outros elementos do design. Sua durabilidade torna a parede de vidro adequada para todos os locais, seja na cozinha ou banheiro ou divisória.

A parede de vidro interior é mais do que apenas sua boa aparência e acabamento impecável. Eles são extremamente resistentes a arranhões e as cores não desaparecerão. Junto com isso, por ser uma superfície sólida e lisa, ao contrário de outras partículas ou acabamentos, garante que sua cozinha seja limpa e higiênica o tempo todo.

## **Aplicações de painéis de parede de vidro**

***Para parede de cortina***

*Para painéis de parede de vidro interior*

*Para cozinha*

*Para partição de vidro*

## **Especificações de painéis de parede de vidro interior**

- Nome da produção: painéis de parede de vidro branco leitoso;
- Espessura do vidro: 5mm, 6mm, 8mm, 10mm, 4+4mm, 5+5mm, 6+6mm, 8+8mm, 10+10mm, etc,
- FotoB ou esmalte de vidro:branco leitoso;
- Funções: à prova de som, luxuoso, segurança, privacidade .etc
- Tempo de produção:10-15 dias
- Capacidade: 2500 SQM por dia

## Detalhes da produção:

**Certificados de painéis de parede de vidro interior**

**O seguinte contém os certificados necessários para painéis de parede de vidro interior.**

**DECLARATION OF CONFORMITY**

Labtest Laboratory

Certificate NO.: LBTC131120CE

**EC Declaration of CPD Conformity**

The following product has been tested by Labtest Technology Laboratory Ltd. with the testing standards and found in conformity with the EC Council Directive of 89/106/EEC. It is possible to use CE marking to demonstrate the conformity with this CPD Directive.

Report No. : LBTC131120CE  
 Applicant : SHENZHEN DRAGON GLASS CO., LTD  
 Address : Yuxial enterprise headquarters base, Longcheng street, Longgang District, Shenzhen, China  
 Manufacturer : SHENZHEN DRAGON GLASS CO., LTD  
 Address : Yuxial enterprise headquarters base, Longcheng street, Longgang District, Shenzhen, China  
 Product : Laminated (Safety) Glass  
 Model No. : 8mm+1.52+8mm, 9mm+1.52+8mm, 10mm+1.52+10mm, 12mm+1.52+12mm  
 Trade Mark : N/A  
 Test Standards : EN ISO 12543-2:2011  
 EN ISO 12543-3:2011

The relevant test reports show that the product complies with the essential requirements in the above listed standards. The applicant is authorized to use this certificate in connection with the EC Declaration of CPD conformity according to the Directive.

This certificate of conformity is based on a single evaluation of the submitted sample(s) of the above-mentioned product. It does not imply an assessment of the whole production and other relevant Directives have to be obtained.
