

Excelente à prova de som janelas laminadas 5+5mm 6+6mm 8+8mm

Você já se irritou com o barulho do trânsito ou as crianças barulhentas brincando ou com a voz do homem falando alto, etc? Fazendo você se sentir como algo entrando em sua mente e você só quer que ele fuja e fique quieto?

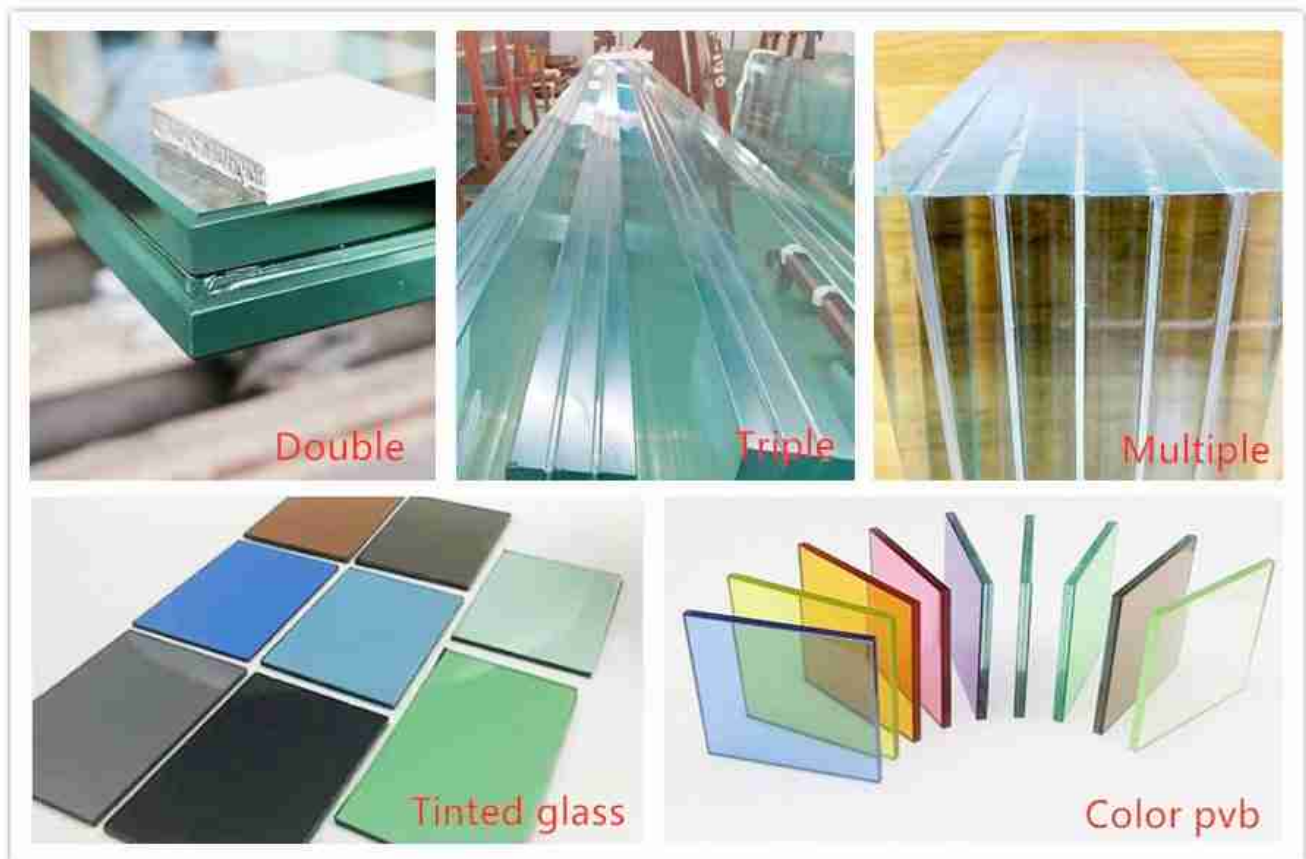

Como reduzir o ruído escolhendo o vidro certo para as janelas?

Here we have solutions for you! Superb soundproofing ***laminated windows***! With these soundproofing laminated glass windows, you can enjoy a quiet sleep or an attentive reading.

1, o que é janela de vidro laminado?

Laminated glass windows generally are made of two or more pieces of glass panels sandwiched together by a PVB or SGP interlayer. This kind of configuration can help you prevent sound transfer. Laminated glass windows for noise reductions can reach 30dB+. You can design your laminated glass windows as double laminated, triple laminated, or even multiple laminating windows, several tinted colors of glass can be your options, or you can choose the [color PVB](#) to be your unique design.

Múltiplas opções para laminação do design de janelas

2, Qual é o benefício quando você usa janelas de vidro laminado?

1, **High strength & safe**, not easy to break into when there are any thefts trying to break in. You can even enhance the anti-theft function with a metal net laminated inside to connect with the police line. So that when there is any intent to break through the laminated windows, it will trigger the alarm.

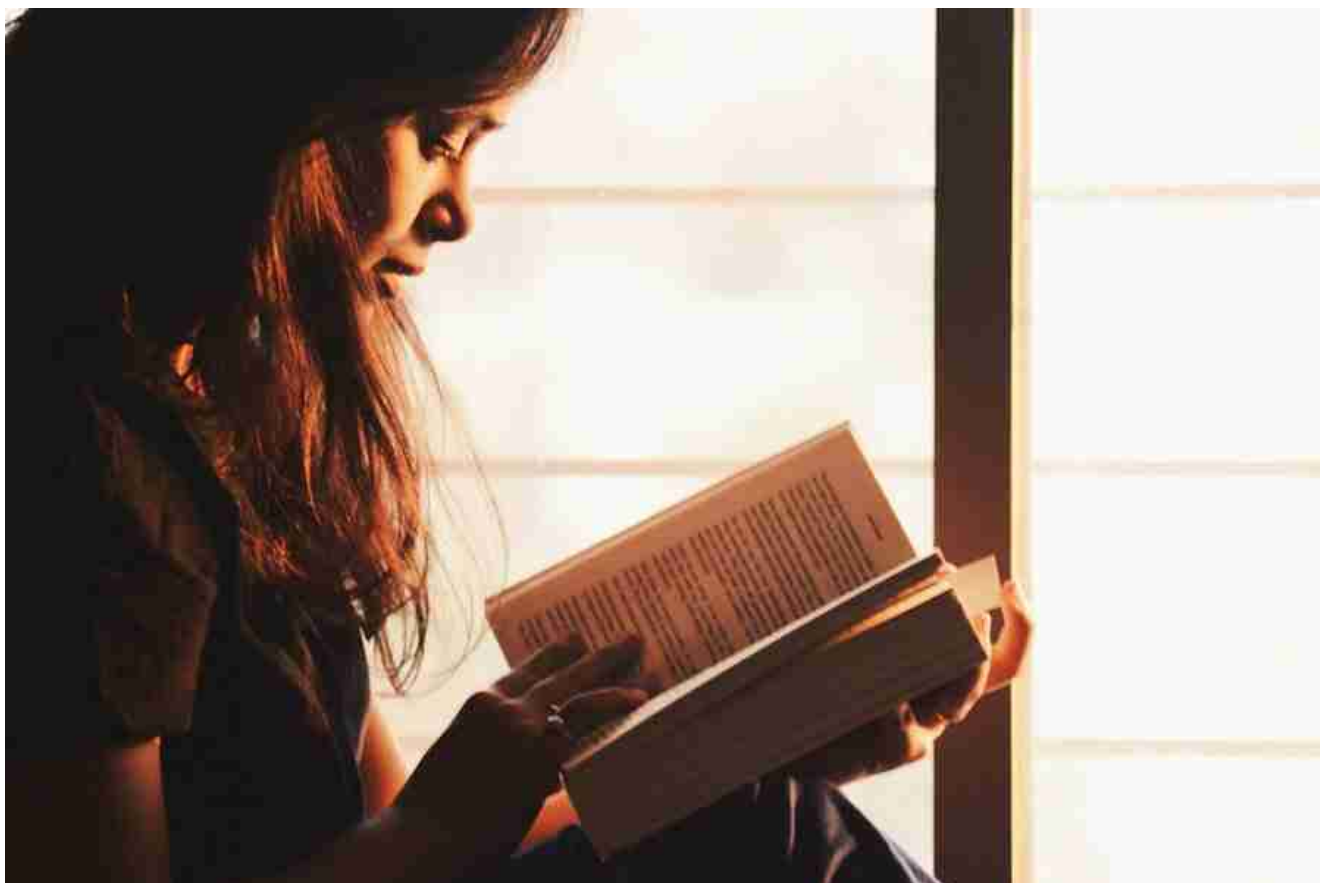

2, **Super high glass transmittance** ensuring you see through clearly the outside scenery. You can enjoy the sunshine and the beautiful beach.

The modern luxury bedroom opens to the patio with an ocean view

3, **Super soundproofing function** to make sure you have good sleep at night and a noiseless environment when you are reading.
