

# **Hurricane resistant frame-less residential glass railing systems prices, 10mm+1.52PVB+10mm clear tempered laminated glass railings suppliers**

## **1, What are 10mm+1.52PVB+10mm clear tempered laminated frame-less residential glass railing systems?**

Shenzhen Dragon Glass's frame-less residential glass railing systems are adopting a super-strong U channel and accessories to fix the 10mm+1.52PVB+10mm clear tempered glass to the ground with strong screw and bolts. These frameless glass railing systems can ensure safety functions as well as super good aesthetics feelings.

10mm+1.52PVB+10mm clear tempered laminated glass composed of two panels of 10mm clear tempered glass “sandwiched” by a 1.52PVB interlayer. It is processed in a high temperature and high-pressure environment which is called a lamination autoclave. 10mm+1.52PVB+10mm clear tempered glass has super high anti-impact and provides hurricane-resistant functions.

## 2, Features:

- **High strength:** 10mm+1.52PVB+10mm clear tempered laminated glass can be hurricane resistant because of its super high strength;
- **Superb aesthetics designs:** super high transmittance ensures you an enjoyable scenery;
- **Fencing functions:** prevent the strong wind coming into the house directly, thus ensure you a good soft feeling of the wind.

## 3, Specifications:

- **Production name:** 10+1.52PVB+10 residential glass railing systems, commercial glass railing systems, glass balcony railing systems;
- **Glass thickness:** 10+10mm, other thicknesses like 5+5mm, 6+6mm, 8+8mm are all available;
- **Glass color:** Clear, low iron, tinted glass like green, grey, blue, bronze, etc;
- **Glass shape:** Flat/curved;
- **Glass size:** customizable, max: 2440mm \* 3660mm;
- **PVB interlayer color:** clear, milky white, blue, green, red, bronze, yellow, purple, etc;
- **PVB interlayer thickness:** 1.52PVB, other thickness: 0.38, 0.76, 1.14, 2.28, etc;
- **U channel material:** aluminum, SS316 accessories;
- **Glass railing systems including:** decoration plates, chips, bolts, screws, etc;
- **Quality:** CE/ASTM/CCC/ISO9001, etc;
- **Production time:** 20 days including complete systems;
- **Packing:** Strong plywood crates;
- **Samples:** Available in 7 days.

## 4, Other options for glass products:
