

Best 8+1.52SGP+8mm 8.8.4SGP clear frosted laminated glass panels price, 17.52SGP VSG laminated glass for exterior glass railing system manufacturers

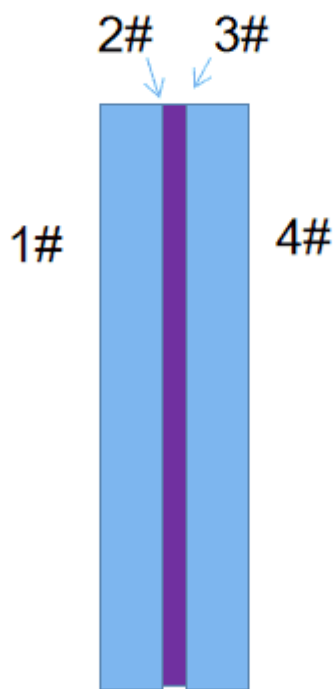

What is 8.8.4SGP/17.52SGP clear frosted laminated glass panel?

8.8.4SGP/17.52SGP/8+1.52SGP+8mm clear frosted laminated glass panels are made by combining one panel of 8mm clear tempered glass and the other 8mm clear frosted tempered glass with 1.52SGP interlayer under super-high pressure and high temperature in an autoclave for a certain time, to achieve a permanently bonding purpose.

Lamination glass structure

For glass frosted effect, normally there are two methods: acid etching & sandblasting. Acid etching is more smooth and leaves no fingerprint. Sandblasting is more efficient in production and economics. Normally frosted side is on the 4# face. As shown in the drawing.

8.8.4 SGP clear frosted laminated glass

Why use 8.8.4SGP/17.52SGP clear frosted laminated glass panel for exterior glass railing?

[SGP laminated glass](#) can ensure you super high strength. Under strong impact it won't break, even broken for two pieces, unlike PVB/EVA laminated glass, the SGP interlayer will remain certain strength and standstill. Reserve some time for the maintenance. [SGP laminated glass](#) is super fit for high-end seaside villas and commercial buildings where high security is required.

Using 17.52SGP clear frosted laminated glass panel for exterior glass railing can give you:

1. Elegantly mysterious feeling;
2. Super strong and safety sense;
3. Joyful mood for the combining of scenery & glass;
