

Super mysterious design 6+6mm 8+8mm milky white translucent laminated glass for partitions

What is 6+6mm 8+8mm milky white translucent laminated glass?

Milky white Translucent laminated glass is a glass, which is produced by combining two or more sheets of glass with polyvinyl butyral (PVB) interlayers. incorporating a milky white translucent interlayer. It maintains light penetration but provides privacy. It is this lamination that enables it to offer impact protection and safety. By varying the number of layers and thickness of the glass, it can offer many benefits and be used in various applications.

Translucent laminated glass price

Specifications

Product name	6+6mm 8+8mm milky white laminated glass
Glass colors	milky white, others colors need to negotiation
Glass thickness	6+6mm, 8+8mm.
PVB color	milky white,
PVB thickness	1.52PVB, others like multiple layers of 0.38mm are available.
Glass type	Laminated glass,Safety glass,soundproofing glass,Translucent glass,obscure glass,
Shape	flat/curved
Quality	Subject to CE/ASTM standard.

Max size	3200*12000mm
Capacity	3000SQM/day

Quality of milky white laminated glass

- Subject to ISO9001 standard;
- Subject to CE EN2190;
- Subject to ASTM1248;
- Subject to AS.

Applications

Milky white translucent laminated glass for partitions
