

**Beautiful fluted glass
samples produced by SDG**

Ultra clear fluted glass samples produced by SDG

Fluted Glass, also can be described as ribbed, reeded, rippled, and textured glass.

Each flute is separated by a thin, textured, continuous crease. The surface of each flute provides unique, contrasting privacy within the elegant linear design. The pattern has a slightly historical and architectural feel and looks perfect for residence decoration.

Application: Balustrade, Cladding, Dividers, Doors, Partitions, Doors, Facade, Feature Walls, Windows
