

Wholesale high quality colorless 4mm glass sheet for sale

What is Colorless 4mm glass sheet for sale?

4mm glass sheet for sale, we also called 4mm float sheet glass, which widely use for different business, for distribution, for wholesale, for projects, and so on.

[Dragon Glass](#) 4mm clear float glass have excellent colorless and distortion free flat surface, providing high light

transmission and clarity. [Clear float glass](#) is the core base product for most of our common glass products and is easily adjusted to a specific requirement: cutting, float laminating glass, etching glass, mirrored and so on.

Characteristic of 4mm glass sheet for sale

- **Transparency:** 4mm clear glass has high visible light transmittance, reach almost 87%, allowing for excellent clarity and transparency. It is the most commonly used type of glass.
- **Color Neutrality:** Clear glass typically exhibits reasonable color neutrality, meaning it maintains the natural colors of objects seen through it.
- **Green Hue:** As the thickness of clear glass increases, a green hue may become more noticeable. However, in the case of 3mm clear glass, the green tint is very faint when viewed on edge.
- **Smoothness:** 5/32 Clear float glass, including 3mm clear glass, is known for its good smoothness, which enhances its visual appeal.
- **Optical Distortion:** Clear float glass typically exhibits no optical distortion, ensuring a clear and undistorted view.

What is the inspection standard of the 4mm glass sheet for sale when delivery?

- 1-Inspect a range of defects, including blisters, stones, spots, chips, scratches, bubbles, inclusions, and so on. These inspections are crucial for maintaining the desired glass sheet grade and ensuring the absence

of impurities.

- 2-To determine the quality of float glass 4mm, various methods can be used. The sink-float comparator method is commonly employed to evaluate the density of small pieces or specimens of glass.
- 3-The clarity of the glass is also an indicator of its quality, with visible impurities or color tints suggesting inferior material.
- Overall, the inspection of clear float 2mm glass involves a combination of automated inspection systems and manual evaluation techniques to ensure the highest quality standards are met.
