

China direct factory amazing 3mm clear float glass for distribution and wholesale

What is 3mm clear float glass?

3mm clear float glass also called colorless glass 3mm, 3mm [float glass](#), which derived from the manufacturing process where molten glass is poured from the furnace and floated evenly onto a bed of molten tin. The float glass is gently cooled under controlled conditions to anneal the glass which enables the glass to be cut and modified.

[Shenzhen Dragon Glass Co., Ltd](#) clear glass 3mm with high quality, excellent colorless and distortion free flat surface, providing high light transmission and clarity. Clear float glass is the core base product for most of our common glass products and is easily adjusted to a specific requirement: cutting, [float laminating glass](#), [etching glass](#) and so on.

Characteristic of 3mm clear float glass

- **Transparency:** 3mm clear glass has high visible light transmittance, reach almost 89%, allowing for excellent clarity and transparency. It is the most commonly used type of glass.
- **Color Neutrality:** Clear glass typically exhibits reasonable color neutrality, meaning it maintains the natural colors of objects seen through it.
- **Green Hue:** As the thickness of clear glass increases, a

green hue may become more noticeable. However, in the case of 3mm clear glass, the green tint is very faint when viewed on edge.

- **UV Blocking:** Some types of 3mm clear glass, such as the UMS Decor Crystal Clear Glass mentioned in the search results, may have UV blocking properties. For example, blocking 45% of UV rays while still allowing 90% light transmission.
- **Smoothness:** 1/8 Clear float glass, including 3mm clear glass, is known for its good smoothness, which enhances its visual appeal.
- **Optical Distortion:** Clear float glass typically exhibits no optical distortion, ensuring a clear and undistorted view.

1/8 float glass supplier warehouse

Will you need a samples of sheet glass for evaluation?

Can cut to size and edge polished for your showing with clients

For over 10 years overseas business, Dragon Glass already working with so many excellent international express company, such as DHL, FedEx, TNT, EMS, so we have a very good rate, please don't worry about the budget.

How's the inspection of the clear float 3mm glass when delivery?

- 1-Inspect a range of defects, including blisters, stones, spots, chips, scratches, bubbles, inclusions, and so on. These inspections are crucial for maintaining the desired glass grade and ensuring the absence of impurities.
- 2-To determine the quality of float glass 3mm, various

methods can be used. The sink-float comparator method is commonly employed to evaluate the density of small pieces or specimens of glass.

- 3-The clarity of the glass is also an indicator of its quality, with visible impurities or color tints suggesting inferior material.
- Overall, the inspection of clear float 2mm glass involves a combination of automated inspection systems and manual evaluation techniques to ensure the highest quality standards are met.
